

CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO. Document

Fusheyuan [2024] No. 54

Notice on Revising the Measures for the Administration of Domestic Project Operations of CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

To all departments and subordinate units of the Company:

The Measures for the Administration of Domestic Project Operations of CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO. were studied and approved at the eighth general manager's office meeting of the Company in 2024, and are hereby issued for implementation. Please comply and implement accordingly.

CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

December 5, 2024

Measures for the Administration of Domestic Project Operations of CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

Chapter 1 General Provisions

Article 1 In accordance with the Guiding Opinions on High-Quality Business Operations of the Joint-Stock Company, and in conjunction with the relevant requirements of the Group Company's Implementation Rules for High-Quality Business Operations (Trial) (Zhongtu Business [2024] No. 341), these Measures are hereby formulated to comprehensively improve the quality of project operations, effectively manage the Company's domestic business operations, and standardize business procedures and workflows.

Article 2 Projects in these Measures refer to various types of the Company's business operations undertaken through direct entrustment or bidding, such as consulting, survey, design, supervision, and engineering general contracting.

Article 3 In principle, business undertaking work shall follow the procedure of project evaluation first, then application for approval, and finally contract signing.

Article 4 When carrying out project business undertaking work, factors such as the Company's development strategy, business direction, responsibility cost, production and technical capabilities, and current status shall be comprehensively considered, and in accordance with the procedural provisions of these Measures, the work in links such as information tracking, project evaluation and application, bid document preparation and review, contract negotiation, contract review and signing, owner services during project implementation, and project return visits shall be completed.

Chapter 2 Relevant Responsibilities

Article 5 The Business Development Department is the management department for the Company's domestic project business operations and is responsible for the layout and expansion of the institute's business market.

Article 6 The relevant personnel involved in project business operations and their main responsibilities are shown in Table 1:

Table 1 Main Responsibilities of Personnel Participating in Business Undertaking Work

Personnel	Main Responsibilities
Business Personnel	1. Market maintenance for each region and sector; 2. Acquisition and tracking of project information, and preliminary determination of the feasibility and necessity of undertaking the project; 3. Fill in the project evaluation form, and initiate and complete the application and approval process for the business project; 4. Preparation and submission of relevant materials during the project undertaking process (such as bids, entrustment, quotations, etc.); 5. Contract negotiation and signing.
Production Department Head	1. Acquisition and tracking of project information, preliminary judgment of the feasibility and necessity of undertaking; 2. Fill in the project evaluation form, initiate and complete the approval process for business projects; 3. Preparation and submission of relevant materials during the project undertaking process (such as bids, entrustment, quotations, etc.); 4. Contract negotiation and signing.
Business Development Department Head	Lead the undertaking of domestic large and medium-sized projects (including bidding and tendering projects), guide and assist business personnel in carrying out their work, participate in the review of each process in the undertaking process, and report to leadership for instructions as required (including undertaking applications, contract amount calculations, contract negotiations, contract reviews, etc.).
Relevant Professional Offices	According to project business needs, complete the preparation of relevant technical materials during the undertaking process.
Relevant Functional Departments	Participate in contract review and assist in providing relevant materials required for business needs.
Professional Chief Engineer	According to project business needs, be responsible for the review, control, and technical support of relevant technical materials during the undertaking process.
Business Leadership in Assisting Role	Lead the undertaking of domestic large and medium-sized projects, guide and assist business personnel in carrying out their work, participate in the approval of relevant processes during the undertaking process, and coordinate regional and sector business work.
Business Leadership in Charge	According to market and industry conditions, formulate the company's business strategy, coordinate the company's overall domestic market business and the undertaking of large and medium-sized projects, and implement the completion of various business indicators.
Supervising Leader	Organize the formulation of the company's business policy, business objectives, and annual business plan, comprehensively grasp the direction of the company's business development, preside over the undertaking of large projects, and supervise and assess the completion of the company's business objectives.

Chapter 3 Project Evaluation and Undertaking

Article 7 Information Tracking

Business personnel or relevant departments shall obtain project information, fill in the Project Evaluation and Application Form (format see Appendix I), and initiate the project undertaking evaluation application process or bidding application process and compliance review process through the information system.
