CCECC FUZHOU SURVEY & DESIGN INSTITUTE
CO.2024 Year 12 Month 5 Day

CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

Management Measures for Domestic Project Operations

Chapter 1 General Provisions

Article 1 In accordance with the Guidance on High-Quality Business Operations of the Joint-Stock Company and the Implementation Rules for High-Quality Business Operations (Trial) of CCECC (CCECC Operations [2024]341 No.), to comprehensively improve project business quality, effectively manage domestic business operations of the company, and standardize business procedures and workflows, these Measures are hereby formulated.

Article 2 The projects referred to in these Measures include consulting, survey, design, supervision, general contracting, and other business operations undertaken by the company through direct commission or bidding.

Article 3 In principle, project acquisition work shall follow the procedure of first conducting project evaluation, then applying for approval, and finally signing the contract.

Article 4 When undertaking project acquisition work, factors such as the company's development strategy, business direction, responsibility cost, production and technical capabilities, and current status shall be comprehensively considered. In accordance with the procedures specified in these Measures, the following stages shall be completed: information tracking, project evaluation and application, bid preparation and review, contract negotiation, contract review and signing, owner service during project implementation, and project follow-up visit.

Chapter 2 Relevant Responsibilities

Article 5 The Business Development Department is the management department for the company's domestic project business operations, responsible for the layout and development of the institute's business market.

Article 6 The relevant personnel involved in project operation work and their main responsibilities are shown in Table 1:

Table 1 Main Responsibilities of Personnel

Personnel	Key Responsibilities
Business Development Personnel	1. Maintenance of markets in respective regions and sectors; 2. Acquisition and tracking of project information, preliminary assessment of feasibility and necessity for undertaking; 3. Completion of project evaluation forms, initiation and completion of the approval process for business development projects; 4. Preparation and submission of relevant documents (e.g., tender documents, commissions, quotations) during the project undertaking process; 5. Contract negotiation and signing.
Head of Production Department	1. Acquisition and tracking of project information, preliminary assessment of feasibility and necessity for undertaking; 2. Completion of project evaluation forms, initiation and completion of the approval process for business development projects; 3. Preparation and submission of relevant documents (e.g., tender documents, commissions, quotations) during the project undertaking process; 4. Contract negotiation and signing.
Head of Business Development Department	Lead domestic medium and large-scale project undertakings (including bidding projects), guide and assist business development personnel in their work, participate in the review of various processes during the undertaking, and submit to leadership for instructions as required (including undertaking applications, contract amount calculations, contract negotiations, contract reviews, etc.).
Relevant Professional Offices/Departments	Complete the preparation of relevant technical data during the undertaking process according to project business needs.
Relevant Functional Departments	Participate in contract reviews and assist in providing relevant materials for business needs.
Professional Chief Engineer	Responsible for reviewing and controlling relevant technical data and providing technical support during the undertaking process according to project business needs.
Executive Leader in Charge of Business Operations	Lead domestic medium and large-scale project undertakings, guide and assist business development personnel in their work, participate in the approval of relevant processes during the undertaking, and coordinate regional and sectoral business operations.
Leader in Charge of Business Operations	Formulate company business strategies based on market conditions, coordinate overall domestic business operations and medium/large-scale project undertakings, and ensure the achievement of various business indicators.
Supervising Leader	Organize the formulation of company business policies, objectives, and annual plans, comprehensively grasp the direction of company development, preside over large-scale project undertakings, and supervise and assess the achievement of company business objectives.

objectives.

Chapter 3 Project Evaluation and Acquisition

Article 7 Information Tracking

Business personnel or relevant departments obtain project information, fill out the Project Evaluation and Application Form (format see Attachment 1), and initiate the project undertaking evaluation application process or bidding application process and compliance review process through the information system.
