

CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO. Document

Fu She Yuan [2024] No. 54

Notice on Revising the "Measures for Domestic Project Business Management of CCECC Fuzhou Survey & Design Institute Co."

To all departments and affiliated units of the Company:

The "Measures for Domestic Project Business Management of CCECC Fuzhou Survey & Design Institute Co." was reviewed and approved at the 8th General Manager's Office Meeting of the Company in 2024, and is hereby issued for implementation. Please comply accordingly.

CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

December 5, 2024

Measures for Domestic Project Business Management of CCECC Fuzhou Survey & Design Institute Co.

Chapter 1 General Provisions

Article 1 In accordance with the guiding opinions on high-quality business operations of the joint-stock company, and considering the relevant requirements of the Group Company's "Implementation Rules for High-Quality Business Operations (Trial)" (Zhong Tu Jing Ying 2024 No. 341), these Measures are formulated to comprehensively improve project business quality, effectively manage the Company's domestic business operations, and standardize business procedures and workflows.

Article 2 The projects referred to in these Measures include consulting, survey, design, supervision, EPC, and other types of business undertaken by the Company through direct commission or bidding.

Article 3 In principle, business undertaking shall follow the procedure of first conducting project evaluation, then applying for approval, and finally signing the contract.

Article 4 When carrying out project business undertaking, factors such as the Company's development strategy, business direction, responsibility cost, production and technical capabilities, and current status shall be comprehensively considered. According to the workflow specified in these Measures, tasks including "information tracking, project evaluation and application, bid document preparation and review, contract negotiation, contract review and signing, client service during project implementation, and project follow-up" shall be completed.

Chapter 2 Relevant Responsibilities

Article 5 The Business Development Department is the management department for the Company's domestic project business operations, responsible for the layout and expansion of the institute-wide business market.

Article 6 The relevant personnel involved in project business operations and their main responsibilities are shown in Table 1:

Table 1 Main Responsibilities of Personnel Participating in Business Undertaking

Personnel	Main Responsibilities
Business Personnel	1. Maintenance of regional and sector markets; 2. Acquisition and tracking of project information, preliminary judgment of feasibility and necessity of undertaking; 3. Filling out the project evaluation form, initiating and completing the application and approval process for business projects; 4. Preparation and submission of relevant materials during the project undertaking process (such as bid documents, commissions, quotations, etc.); 5. Contract negotiation and signing.
Head of Production Department	1. Obtain and track project information, make preliminary judgments on the feasibility and necessity of undertaking contracts; 2. Fill out the project evaluation form, initiate and complete the approval process for business projects; 3. Prepare and submit relevant materials during the contract undertaking process (such as tender documents, commissions, quotations, etc.); 4. Contract negotiation and signing.
Head of Business Development Department	Lead the undertaking of domestic large and medium-sized projects (including bidding projects), guide and assist business personnel in carrying out work, participate in the review of various processes during the contract undertaking, and report to leaders for instructions as required (including contract undertaking applications, contract amount calculations, contract negotiations, contract reviews, etc.).
Relevant Professional Offices/Divisions	Complete the preparation of relevant technical materials during the contract undertaking process according to project business needs.
Relevant Functional Departments	Participate in contract reviews and assist in providing relevant materials for business requirements.
Chief Engineer in Charge of Specialty	Responsible for reviewing and controlling relevant technical materials and providing technical support during the contract undertaking process according to project business needs.
Executive Leader in Charge of Business Operations	Lead the undertaking of domestic large and medium-sized projects, guide and assist business personnel in carrying out work, participate in the approval of relevant processes during the contract undertaking, and coordinate regional and sectoral business operations.
Leader in Charge of Business Operations	Formulate company business strategies based on market industry conditions, oversee the company's overall domestic market operations and the undertaking of large and medium-sized projects, and ensure the completion of various business indicators.
Supervising Leader	Organize the formulation of company business policies, business objectives, and annual business plans, comprehensively grasp the direction of company business development, preside over the undertaking of large projects, and supervise and assess the completion of company business objectives.

Chapter 3 Project Evaluation and Undertaking

Article 7 Information Tracking

Business personnel or relevant departments obtain project information, fill out the Project Evaluation and Application Form (format see Attachment 1), and initiate the project undertaking evaluation application process, bidding application process, and compliance review process through the information system.
