Measures for the Administration of Domestic Project Operations
of CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

Chapter 1 General Provisions

Article 1 In accordance with the guiding opinions on high-quality business work of the joint-stock company, and in combination with the relevant requirements of the Group Company's Implementation Rules for High-Quality Business Work (Trial) (CCECC Business [2024] No. 341), these Measures are specially formulated to comprehensively improve project business quality, effectively manage the company's domestic business work, and standardize business procedures and workflows.

Article 2 Projects in these Measures refer to various types of the Company's business operations undertaken through direct entrustment or bidding, such as consulting, survey, design, supervision, and engineering general contracting.

Article 3 In principle, business undertaking work shall follow the procedure of project evaluation first, then application for approval, and finally contract signing. Article 4 When carrying out project business undertaking work, factors such as the Company's development strategy, business direction, responsibility cost, production and technical capabilities, and current status

Article 4 shall be comprehensively considered. In accordance with the procedural provisions of these Measures, the work of such stages as "information tracking, project evaluation and application, bid document preparation and review, contract negotiation, contract review and signing, owner services during project implementation, and project return visits" shall be completed.

Chapter 2 Relevant Responsibilities

Article 5 The Business Development Department is the management department for the Company's domestic project business work and is responsible for the layout and expansion of the institute's business market.

Article 6 The relevant personnel and main responsibilities involved in project business work are shown in Table 1 below:

表 1 经营承揽工作参与人员主要职责

Personnel	Main Responsibilities
Business Personnel	1. Market maintenance for each region and sector; 2. Acquisition and tracking of project information, preliminary judgment of the feasibility and necessity of undertaking; 3. Fill in the project evaluation form, initiate and complete the application and approval process for business projects; 4. Preparation and submission of relevant materials during the project undertaking process (such as bids, entrustment, quotations, etc.); 5. Contract negotiation and signing.
Head of Production Department	1. Acquisition and tracking of project information, preliminary judgment of the feasibility and necessity of undertaking; 2. Fill in the project evaluation form, initiate and complete the approval process for business projects; 3. Preparation and submission of relevant materials during the project undertaking process (such as bids, entrustment, quotations, etc.); 4. Contract negotiation and signing.
Head of Business Development Department	Lead the undertaking of domestic large and medium-sized projects (including bidding and tendering projects), guide and assist business personnel in carrying out their work, participate in each process during the undertaking process, and report to leadership for instructions as required (including undertaking applications, contract amount calculation, contract negotiation, contract review, etc.).
Relevant Professional Offices	According to project business needs, complete the preparation of relevant technical materials during the undertaking process.
Relevant Functional Departments	Participate in contract review and assist in providing relevant materials required for business needs.
Professional Chief Engineer	According to project business needs, be responsible for the review and control of relevant technical materials during the undertaking process and provide technical support.
Business Co-Managing Leader	Lead the undertaking of domestic large and medium-sized projects, guide and assist business personnel in carrying out their work, participate in the approval of relevant processes during the undertaking process, and coordinate regional and sector business work.
Business Managing Leader	According to market and industry conditions, formulate the company's business strategy, coordinate the company's overall domestic business, and the undertaking of large and medium-sized projects, and implement the completion of various business indicators.
Super-leading Leader	On the basis of formulating the company's business strategy and business objectives, and grasping the company's business development, preside over the undertaking of large projects, and supervise and assess the completion of the company's business objectives.

Chapter 3 Project Evaluation and Undertaking

Article 7 Information Tracking Business personnel or relevant departments shall obtain project information, fill in the Project Evaluation and Application Form (format see Appendix 1), and initiate the project undertaking evaluation application process or bidding application process and compliance review process through the information system.
