Measures for the Management of Domestic Project Operations of CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

Chapter 1 General Provisions

Article 1 In accordance with the guiding opinions on high-quality business operations of the joint-stock company, and in conjunction with the relevant requirements of the Group Company's Implementation Rules for High-Quality Business Operations (Trial) (CCECC Operations [2024] No. 341), these Measures are specially formulated to comprehensively improve project operation quality, effectively manage the company's domestic business operations, and standardize business procedures and workflows.

Article 2 Projects in these Measures refer to various types of the Company's business operations undertaken through direct entrustment or bidding, such as consulting, survey, design, supervision, and engineering general contracting.

Article 3 In principle, business undertaking work shall follow the procedure of first project assessment, then application for approval, and finally contract signing. Article 4 When carrying out project business undertaking work, factors such as the Company's development strategy, business direction, responsibility cost, production and technical capabilities, and current status

Article 4 shall be comprehensively considered. In accordance with the procedural provisions of these Measures, the work of links such as "information tracking, project assessment and application, bid document preparation and review, contract negotiation, contract review and signing, owner services during project implementation, and project return visits" shall be completed.

Chapter 2 Relevant Responsibilities

Article 5 The Business Development Department is the management department for the Company's domestic project business work and is responsible for the layout and development of the institute's business market.

Article 6 The relevant personnel involved in project business operations and their main responsibilities are shown in Table 1 below:
