CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

December 5, 2024

Measures for Domestic Project Business Management of CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

Chapter 1 General Provisions

Article 1 In accordance with the guiding opinions on high-quality business operations of the Joint-Stock Company, and taking into account the relevant requirements of the "Implementation Rules for High-Quality Business Operations (Trial)" of the Group Company (Zhongtu Jingying [2024] No. 341), these Measures are formulated to comprehensively improve project business quality, effectively manage the company's domestic business operations, and standardize business procedures and workflows.

Article 2 The projects referred to in these Measures include various types of company business operations such as consulting, survey, design, supervision, and general contracting obtained through direct commission or bidding.

Article 3 In principle, business acquisition work shall follow the procedure of first conducting project evaluation, then applying for approval, and finally signing the contract.

Article 4 When carrying out project business acquisition work, factors such as the company's development strategy, business direction, responsibility cost, production and technical capabilities, and current status shall be comprehensively considered. In accordance with the process provisions of these Measures, work shall be completed in stages including "information tracking, project evaluation and application, bid document preparation and review, contract negotiation, contract review and signing, owner service during project implementation, and project follow-up."

Chapter 2 Relevant Responsibilities

Article 5 The Business Development Department is the management department for the company's domestic project business operations, responsible for the layout and development of the institute's business market.

Article 6 The relevant personnel involved in project business operations and their main responsibilities are shown in Table 1:

Table 1 Main Responsibilities of Personnel Participating in Business Acquisition Work

Personnel	Main Responsibilities
Business Personnel	1. Maintenance of markets in each region and sector; 2. Obtaining and tracking project information, preliminary judgment of the feasibility and necessity of acquisition; 3. Filling out the project evaluation form, initiating and completing the application and approval process for business projects; 4. Preparation and submission of relevant materials during the project acquisition process (such as bid documents, commissions, quotations, etc.); 5. Contract negotiation and signing.
Head of Production Department	1. Obtain and track project information, and make a preliminary assessment of the feasibility and necessity of undertaking the project; 2. Complete the project evaluation form, initiate and complete the approval process for business projects; 3. Prepare and submit relevant materials during the project undertaking process (such as tender documents, commissions, quotations, etc.); 4. Contract negotiation and signing.
Head of Business Development Department	Lead the undertaking of domestic large and medium-sized projects (including bidding projects), guide and assist business personnel in carrying out work, participate in the review of various processes during the undertaking process, and report to leaders for instructions in accordance with regulations (including undertaking applications, contract amount calculations, contract negotiations, contract reviews, etc.).
Relevant Specialized Divisions	Complete the preparation of relevant technical materials during the undertaking process based on project business needs.
Relevant Functional Departments	Participate in contract reviews and assist in providing relevant materials required for business operations.
Chief Engineer in Charge of the Discipline	Responsible for reviewing and controlling relevant technical materials and providing technical support during the undertaking process based on project business needs.
Assisting Leader for Business Operations	Lead the undertaking of domestic large and medium-sized projects, guide and assist business personnel in carrying out work, participate in the approval of relevant processes during the undertaking process, and coordinate regional and sectoral business operations.
Leader in Charge of Business Operations	Formulate company business strategies based on market and industry conditions, coordinate overall domestic business operations and the undertaking of large and medium-sized projects, and ensure the completion of various business indicators.
Leader in Overall Charge	Organize the formulation of company business policies, business objectives, and annual business plans, comprehensively grasp the direction of company business development, preside over the undertaking of large projects, and supervise and assess the completion of company business objectives.

Chapter 3 Project Evaluation and Acquisition

Article 7 Information Tracking

Business personnel or relevant departments obtain project information, fill out the Project Evaluation and Application Form (format see Attachment I), and initiate the project acquisition evaluation application process, bidding application process, and compliance review process through the information system.
