CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO. Domestic Project Management Measures for Business Operations

Chapter 1 General Provisions

Article 1 In accordance with the guiding opinions of the Joint-Stock Company on high-quality business operations, and in conjunction with the relevant requirements of the Group Company's Implementation Rules for High-Quality Business Operations (Trial) (Zhongtu Jingying [2024] No. 341), these Measures are specially formulated to comprehensively improve the quality of project business operations, effectively manage the company's domestic business operations, and standardize business procedures and workflows.

Article 2 For the purposes of these Measures, "projects" refer to various types of company business operations undertaken through direct entrustment or bidding, including consulting, investigation, design, supervision, and engineering general contracting.

Article 3 In principle, business undertaking work shall follow the procedure of project evaluation first, then application for approval, and finally contract signing.

Article 4 When carrying out project business undertaking work, factors such as the company's development strategy, business direction, responsibility cost, production and technical capabilities and current status shall be comprehensively considered, and in accordance with the process provisions of these Measures, the work of such stages as "information tracking, project evaluation and application, bid document preparation and review, contract negotiation, contract review and signing, owner services during project implementation, and project return visits" shall be completed.

Chapter 2 Relevant Responsibilities

Article 5 The Business Development Department is the management department for the company's domestic project business work and is responsible for the layout and expansion of the company's business market.

Article 6 The relevant personnel involved in the project operation work and their main responsibilities are shown in Table 1:

Table 1 Main Responsibilities of Personnel Participating in Business Contracting Work

Personnel	Main Responsibilities
Business Personnel	1. Market maintenance for each region and sector; 2. Acquisition and tracking of project information, preliminary judgment of the feasibility and necessity of undertaking; 3. Fill in the project evaluation form, initiate and complete the application and approval process for business projects; 4. Preparation and submission of relevant materials during the project undertaking process (such as bids, entrustment, quotations, etc.); 5. Contract negotiation and signing.
Head of Production Department	1. Acquisition and tracking of project information, preliminary judgment of the feasibility and necessity of undertaking; 2. Fill in the project evaluation form, initiate and complete the approval process for business projects; 3. Preparation and submission of relevant materials during the project undertaking process (such as bids, entrustment, quotations, etc.); 4. Contract negotiation and signing.
Head of Business Development Department	Lead the undertaking of domestic large and medium-sized projects (including bidding and tendering projects), guide and assist business personnel in carrying out work, participate in the review of each process during the undertaking process, and report to leadership for instructions as required (including undertaking applications, contract amount calculation, contract negotiation, contract review, etc.).
Relevant Specialized Divisions	According to project business needs, complete the preparation of relevant technical materials during the undertaking process.
Relevant Functional Departments	Participate in contract review and assist in providing relevant materials required for business operations.
Chief Engineer in Charge of the Discipline	According to the project's business needs, responsible for reviewing and checking relevant technical materials during the contracting process and providing technical support.
Assisting Leader for Business Operations	Lead the contracting of large and medium-sized domestic projects, guide and assist business personnel in carrying out their work, participate in the approval of relevant processes during the contracting process, and coordinate the business work of regions and sectors.
Leader in Charge of Business Operations	According to market and industry conditions, formulate the company's business strategy, coordinate the overall domestic market business of the company and the contracting of large and medium-sized projects, and ensure the completion of various business indicators.
Leader in Overall Charge	Organize the formulation of the company's business policy, business objectives, and annual business plan, fully grasp the direction of the company's business development, preside over the contracting of large projects, and supervise and assess the completion of the company's business objectives.

Chapter 3 Project Evaluation and Contracting

Article 7 Information Tracking

Business personnel or relevant departments obtain project information, fill in the Project Evaluation and Application Form (format see Appendix 1), and initiate the project contracting evaluation application process or bidding application process and compliance review process through the information system.
