

CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO. Document

Fusheyuan [2024] No. 54

Notice on Revising the "Measures for Business Management of Domestic Projects of CCECC Fuzhou Survey & Design Institute Co."

To all departments and subordinate units of the company:

The "Measures for Business Management of Domestic Projects of CCECC Fuzhou Survey & Design Institute Co." was reviewed and approved at the 8th General Manager's Office Meeting of the Company in 2024, and is hereby issued for implementation. Please comply with and execute accordingly.

CCECC FUZHOU SURVEY & DESIGN INSTITUTE CO.

December 5, 2024

Measures for Business Management of Domestic Projects of CCECC Fuzhou Survey & Design Institute Co.

Chapter 1 General Provisions

Article 1 In accordance with the guiding opinions on high-quality business operations of the Joint-Stock Company, and taking into account the relevant requirements of the "Implementation Rules for High-Quality Business Operations (Trial)" of the Group Company (Zhongtu Jingying [2024] No. 341), these Measures are formulated to comprehensively improve project business quality, effectively manage the company's domestic business operations, and standardize business procedures and workflows.

Article 2 The projects referred to in these Measures include various types of company business operations such as consulting, survey, design, supervision, and general contracting obtained through direct commission or bidding.

Article 3 The work of business acquisition shall in principle follow the procedure of first conducting project evaluation, then applying for approval, and finally signing the contract.

Article 4 When carrying out project business acquisition work, factors such as the company's development strategy, business direction, responsibility cost, production and technical capabilities, and current status shall be comprehensively considered. According to the process regulations of these Measures, the work stages including "information tracking, project evaluation and application, bid document preparation and review, contract negotiation, contract review and signing, owner service during project implementation, and project follow-up" shall be completed.

Chapter 2 Relevant Responsibilities

Article 5 The Business Development Department is the management department for the company's domestic project business operations, responsible for the layout and development of the institute's business market.

Article 6 The relevant personnel involved in project business operations and their main responsibilities are shown in Table 1:

Table 1 Main Responsibilities of Personnel Participating in Business Acquisition Work

Personnel	Main Responsibilities
Business Personnel	1. Maintenance of markets in each region and sector; 2. Obtaining and tracking project information, preliminary judgment of the feasibility and necessity of acquisition; 3. Filling in the project evaluation form, initiating and completing the application and approval process for business projects; 4. Preparation and submission of relevant materials during the project acquisition process (such as bid documents, commissions, quotations, etc.); 5. Contract negotiation and signing.
Head of Production Department	1. Obtaining and tracking project information, preliminary judgment of the feasibility and necessity of acquisition; 2. Filling in the project evaluation form, initiating and completing the approval process for business projects; 3. Preparation and submission of relevant materials during the project acquisition process (such as bid documents, commissions, quotations, etc.); 4. Contract negotiation and signing.
Head of Business Development Department	Lead the acquisition of large and medium-sized domestic projects (including bidding projects), guide and assist business personnel in carrying out work, participate in the review of various processes during the acquisition, and report to leaders for instructions as required (including acquisition applications, contract amount calculations, contract negotiations, contract reviews, etc.).
Relevant Specialized Divisions	Complete the preparation of relevant technical materials during the acquisition process according to project business needs.
Relevant Functional Departments	Participate in contract reviews and assist in providing relevant materials for business needs.
Chief Engineer in Charge of the Discipline	Responsible for reviewing and controlling relevant technical materials and providing technical support during the acquisition process according to project business needs.
Assisting Leader for Business Operations	Lead the acquisition of large and medium-sized domestic projects, guide and assist business personnel in carrying out work, participate in the approval of relevant processes during the acquisition, and coordinate regional and sectoral business operations.
Leader in Charge of Business Operations	Formulate the company's business strategies based on market industry conditions, coordinate the overall domestic business operations and the acquisition of large and medium-sized projects, and implement the completion of various business indicators.
Leader in Overall Charge	Organize the formulation of the company's business policies, business objectives, and annual business plans, comprehensively grasp the company's business development direction, preside over the acquisition of large projects, and supervise and assess the completion of the company's business objectives.

Chapter 3 Project Evaluation and Acquisition

Article 7 Information Tracking

Business personnel or relevant departments obtain project information, fill in the Project Evaluation and Application Form (format see Attachment 1), and initiate the project acquisition evaluation application process or bidding application process and compliance review process through the information system.
